

Important message from Medicare

Update

There has been an update to the Medicare form (IMM).

Whenever anyone is obtaining an IMM, we much now enter the insurance name and telephone number associated with the Medicare insurance plan. If the Medicare plan is straight Medicare (Medicare Part A or Medicare Part B), you must type "N/A" in the box. Example: If the patient has UHC Medicare we must type in the number associated with UHC Medicare (877) 842-3210 (See List Below). This is not optional and needs to be completed for the form to be compliant

See Image below indicating where we enter the number

On The iPad	On The Wacom
	
<i>On the tablet, the Cerner team is currently working on a popup or drop-down menu allowing the user to select the telephone number. Until that happens, we must manually enter the number.</i> <i>Below are the most used Medicare plans.</i> • Aetna MCR - (888) 632-3862 • Blue Cross MCR - (877) 657-6115 • Cigna MCR - (800) 244-6224 • Emblem MCR - (800) 447-8255 • Fidelis MCR - (888) 343-3547 • Humana MCR - (800) 457-4708 • Medicare (Straight) - N/A • MVP MCR - (800) 666-1762 • UHC MCR - (877) 842-3210 • Wellcare MCR - (800) 288-5441	<i>On the Wacom you will get a popup with the most used Medicare plans. The numbers will be listed on the popup to make things easier</i>
